

Introduction

Metal distribution box is made of high-quality cold roll steel, designed to be assembled with various electrical components according to different control function requirement.

Technical Specifications

- Standard: IEC60529
- Approval: CE
- Material: Cold rolled plate/Galvanized sheet
- Body and door: 1.5mm steel sheet
- Mounting plate: 2.5mm steel sheet
- Case and door: RAL 7032 mat finish
- Mounting plate: RAL 2004 smooth finish
- Locking system with 3mm double bar key
- Package with hardware for earth connection and screws to mount all components.
- Protection degree: IP65
- Mounting Plate
- Gland plate and gasket

Accessories Introduction

Base board

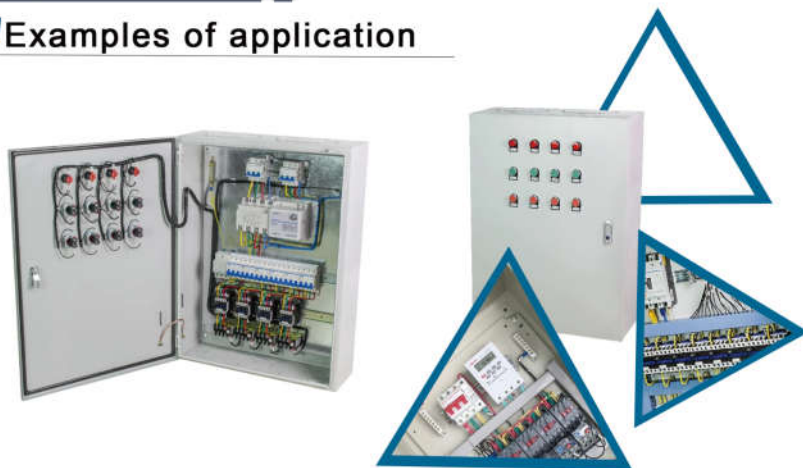

- ▼ Thickness: 1.2-2.0mm (standard value)
- ▼ high-quality cold roll steel
- ▼ Powder coating/painting

- ▼ Material: plastic or aluminium alloy optional
- ▼ Design: according to customer's request

Lock of the box

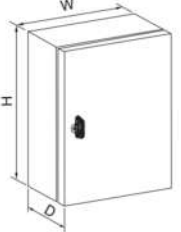

Examples of application

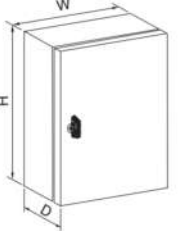

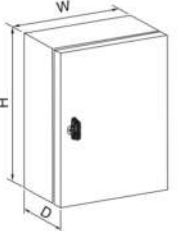

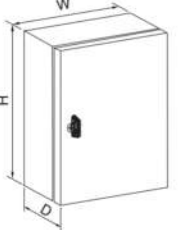

Installation Instructions

Model	Product	SIZE(MM) HEIGHT*WIDTH*DEPTH	THICKNESS(MM) DOOR*BODY*MP
